PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 2.3 years of experience (including 6 months of internship) architecting scalable web applications using MERN stack and Next.js. Expertise in designing high-performance REST APIs, integrating payment/logistics APIs (Razorpay, Shiprocket, MSG91), and optimizing system performance. Committed to delivering production-ready solutions with clean code architecture and responsive UI/UX design.

PROFESSIONAL EXPERIENCE

Full Stack Developer | Namami Infotech India Pvt. Ltd.

July 2026 – Present

- Developed scalable multi-tenant SaaS applications using Node.js, Express.js, MySQL, and Sequelize ORM.
- Built secure and optimized REST APIs with efficient database design and query optimization.
- Implemented multi-threaded/background processing to improve application scalability and performance.
- Integrated rate limiting, JWT authentication, and role-based access control for enhanced security.
- Designed scalable backend architecture with robust validation, error handling, and performance optimization.

MERN Stack Developer | Gahmar Admark Solutions Pvt. Ltd. (GASPL), Lucknow

Apr 2025 – Jun 2026

- Developed and maintained web applications using Next.js, Node.js, Express.js, and MongoDB.
- Engineered scalable REST APIs and optimized backend performance, reducing response latency.
- Implemented secure authentication and authorization using JWT and bcrypt.
- Integrated payment, logistics, and communication services through third-party APIs.
- Built SaaS-based solutions with scalable architecture and multi-user functionality.

MERN Stack Developer (Intern) | Hanumant Technology Pvt. Ltd., Lucknow

Oct 2024 – Mar 2025

- Built MERN stack applications with Redux for efficient state management and improved user experience.
- Developed RESTful APIs and implemented Redis caching to enhance application performance.
- Created responsive user interfaces using React.js, Material UI, and modern CSS.
- Implemented secure authentication mechanisms and backend best practices.
- Collaborated in code reviews and performance optimization initiatives.

PROJECTS

Hotel Management System | Professional Project | hotels-management-system-frontend.vercel.app

- Developed a multi-tenant SaaS hotel management platform supporting multiple hotels with centralized administration.
- Built modules for room booking, guest management, staff management, billing, and subscription plans.
- Implemented role-based access control, secure REST APIs, and optimized backend services for handling concurrent user requests.

Zamboree Techvision | Professional Project | zamboree.com

- Developed backend features for a business listing platform supporting 200+ vendors and improving engagement by 40%.

Vendor Management Platform | Professional Project | partner.zamboree.com

- Built backend services and REST APIs for vendor registration, profile management, product listings, and offers.
- Enhanced performance, authentication, and vendor data management workflows.

E-Commerce Platform | Personal Project | Feb 2025 – Mar 2025 | e-commerce-frontend-ruby-seven.vercel.app

- Built an e-commerce application featuring product catalog, cart, and order management functionalities.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Redux, Context API, Tailwind CSS, Bootstrap, Material-UI

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, OAuth 2.0, Nest Js, bcrypt, Redis, Socket.IO

Database: MySQL, MongoDB, Sequelize ORM, Drizzle ORM, Mongoose, Database Design, Indexing

API & Integrations: REST API Design, CRUD Operations, Postman, Razorpay, Shiprocket, MSG91

Tools & Platforms: Git, GitHub, Render, Vercel, NPM

Deployment & DevOps: Linux, SSH, WinSCP, Nginx, PM2, SSL, Basic CI/CD, VPS Server Deployment

EDUCATION

Bachelor of Technology (Information Technology) | R.R. Institute of Modern Technology, Lucknow

2021 – 2025
